Rescue Services / Security Sciences	75	15
TOTAL	225	45

In the event of a low number of applicants, the faculty retains the right to not open the study programme and to offer applicants another study programme in the same field of study.

TERMS AND CONDITIONS OF ADMISSION

Basic condition of admission

The basic condition for admission to the bachelor's degree study (the first-degree study programme) is the full completion of secondary education or full secondary vocational education (Higher Education Act, No.131/2002 Coll. as amended). In the case of a foreign applicant or a student who completed secondary education abroad, the education is comparable to that completed by a school leaving examination in the Slovak Republic. An applicant who completed secondary education abroad shall submit, along with the application form or more precisely, no later than on the date of enrolment, the decision on the recognition of the certificate of completion of secondary education recognized by a relevant institution in the Slovak Republic.

Other conditions of admission

1. No entrance examination. The Faculty will accept applicants who meet the following criteria:

- applicants from grammar schools who have reached the arithmetic mean of marks at the year-end report for the penultimate year of study (not the final year) up to 1.7 inclusive,
- applicants from secondary vocational schools, associated schools and academies who have reached the arithmetic mean of marks at the year-end report for the penultimate year of study (not the final year) up to 1.5 inclusive,
- in the current school passed NPS (SCIO) tests in general study prerequisites or mathematics with at least a 60% score,
- secondary school graduates who during their secondary school study were successful solvers of the Olympiads, Students' Professional Activities (SPA) or international and national competitions related to the content of the study programme and ranked from 1st to 5th place.

Compliance with **one of the conditions mentioned in (a) to (d)** above is sufficient for admission without entrance examination. Other applicants will have to pass the entrance examination.

2. Entrance exams

Applicants who do not meet the conditions for admission without entrance examination will pass a written general knowledge test. The general knowledge test verifies the basic prerequisites and abilities that students need to successfully complete their university study. The test is divided into three sections: quantitative (simple mathematical tasks, analytical and logical thinking, judgment, and inference), language (ability to analyse the linguistic means of the Slovak language in terms of their grammatical, lexical, and stylistic characteristics, meaning and form in vocabulary), and general social overview (orientation in current domestic and foreign events).

Applicants will be admitted on the basis of the results of the admission procedure in the order of the total number of points achieved, depending on the planned capacity. The final decision about the results of the admission procedure is made by the dean of the Faculty of Security Engineering at UNIZA on the basis of a proposal from the selection committee of the Faculty. The Dean is authorised to supplement the number of accepted applicants to the first year of bachelor's degree study programmes with the expected number of applicants who met the conditions for admission to another bachelor's degree study programme but were not accepted due to the capacity of the initially chosen study programme.

In selected bachelor's degree study programmes, in the event of vacant places, there is a possibility of organizing a second round of the admission procedure. The list of the bachelor's degree study programmes for the second round of the admission procedure, the deadline for submitting the application form, and the date of the admission procedure will be published by 19 June 2023. The conditions of admission and the form of the admission procedure for the bachelor's degree study programmes are the same as in the first round of the admission procedure.

Language competence

Written and oral command of the Slovak or Czech language is required for study at the Faculty.

ADMISSION OF FOREIGN STUDENTS

The basic and other terms and conditions of admission are applicable for applicants from abroad as well as for applicants from Slovakia.

Foreign students who study in a foreign language (i.e., not Slovak) pay the tuition fee as stated in Section 92 (8) of the Higher Education Act. The tuition fee is specified by the UNIZA directive and published for the respective academic year on the university's website. Foreign students who study in the Slovak language do not have to pay the tuition fee. Applicants from the Czech Republic can use the form valid in the Czech Republic to submit their application for study. Applicants who do not actively speak Slovak or Czech are required to successfully complete language training (it is possible to attend the Slovak language courses at UNIZA).

For foreign applicants who were accepted on the basis of intergovernmental agreements, bilateral agreements, or Slovak government grants, the terms and conditions stated in the respective documents are applicable.

APPLICATION FORM

To study in a bachelor's degree at the Faculty of Security Engineering UNIZA, one application form where applicants indicate the study programmes in order of their preference is sufficient. In the event that applicants are interested in both forms of study (full-time and part-time), it is necessary to submit two application forms, including payments of two admission procedure fees.

Applicants fill in the application form - Prihláška na vysokoškolské štúdium - 1. Stupeň or they can also use an electronic application form. The electronic application can be filled in via the UNIZA website: <https://vzdelavanie.uniza.sk/prijimacky/index.php> or on the Portal VS (University Portal): <https://prihlaskavs.sk/sk/>.

Even in the case of an electronic application form, it is necessary to provide the required attachments and proof of payment of the fee. In the case of filling in the application form - Prihláška na vysokoškolské štúdium - 1. Stupeň, it is necessary to send it to the address FBI UNIZA, Ul. 1. mája 32, 010 26 Žilina **within the stipulated deadlines.**

An incomplete application form or an application form sent after the deadline will not be accepted. In the event of non-participation in the admission procedure or a failure in the admission procedure, the Faculty does not refund the admission procedure fee. If the applicant wants to take part in the admission procedure at several faculties of UNIZA, the application forms must be submitted separately to each faculty with the payment of the relevant fee.

Attachments to the bachelor's degree application form:

1. curriculum vitae,
2. proof of payment of the admission fee,
3. copies of the year-end reports from secondary school.

Upon completion of the school-leaving examination, applicants shall provide a certified copy of the school-leaving examination certificate and a year-end report from the final year of secondary school study by a deadline, which will be announced to each applicant in writing.

Admission fee:

Send € 20 to:

Žilinská univerzita v Žiline, Univerzitná 1, 010 26 Žilina

Bank: Štátna pokladnica

IBAN: SK30 8180 0000 0070 0026 9933

const. symbol: 0308

variable symbol: 10931 – bakalárske štúdium

Payment method:

payment can be paid by bank transfer or postal order to the account above.

Proof of payment:

proof of payment is to be sent to the Faculty with the application form.

Tuition fees – in accordance with the Higher Education Act, information about the amount of tuition fee for the relevant academic year will be published on the website of the University of Žilina in Žilina within the stipulated deadlines.

With payment of the admission fee from the EU member states, the EES countries, territories that are considered a part of the EU (Treaty of Rome, Section 299) and SEPA countries, it is necessary to use **BIC: SPSRSKBAXXX, IBAN: SK30 8180 0000 0070 0026 9933**.

**USEFUL DATES**

Open Day	Deadline for submitting the application form	Entrance exams
18 November 2022 and 8 February 2023	until 31 March 2023	7 June 2023

**ACCOMMODATION**

All students in the first year of bachelor's degree study are entitled to accommodation in accordance with the internal regulations of the university. **Monthly accommodation fee: € 41 – € 61.**

**CATERING**

Students can use the services of the catering facility of the University of Žilina. **Price for food: € 1.60 – € 4.20.**

**SCHOLARSHIPS**

Students of all study programmes can obtain motivational scholarships (for excellent results or exceptional achievements) in accordance with the stated criteria.

**FOLLOW-UP STUDY AFTER COMPLETION OF BACHELOR'S DEGREE STUDY**

There is a possibility for continuing bachelor's degree study within follow-up master's (engineering) degree study programmes at the Faculty of Security Engineering UNIZA in the academic year 2023/2024 – Security Management, Crisis Management, and Rescue Services (information about study programmes can be found on the university website). After completing the bachelor's degree study, it is necessary to verify the current offer of the study programmes in a particular academic year.

BACHELOR'S DEGREE STUDY PROGRAMMES

SECURITY MANAGEMENT

(Field of study 9205 Security Sciences)

The study is focused on the university education of professionals in the fields of protection of persons, property, and information of citizens, legal entities, or the state. During the bachelor's degree study, graduates have the opportunity to profile themselves in the fields of physical and object security, information security, or in selected areas of security management systems. After graduation, the graduate can work as a security consultant, information security consultant, security technician, detective, or security supervisor. He/she can also work at the middle levels of state administration management (e.g., Prison and Court Guard Service, Ministry of Interior of the Slovak Republic, Police Force, National Security Authority, Institute of Forensic Science, SK-CERT).

CRISIS MANAGEMENT

(Field of study 9205 Security Sciences)

The study is focused on training of specialists in risk management and crisis management in organizations who can adequately respond to changes of the environment, processes, projects and apply the acquired knowledge to maintain their continuity and competitiveness. Graduates can profile themselves in the following three areas: A professional of crisis management in state administration and self-government knows the professional terms, understands them, and connects the links between them, especially in the fields of civil protection, crisis management, public administration, information systems in crisis management and economic mobilization, solutions to crisis phenomena of natural-climatic and anthropogenic nature, and other disciplines in public administration. The organization security specialist knows the professional terms, understands them, and connects the links between them, especially in the fields of occupational health and safety, environmental safety, reliability of the human factor, ergonomics, work environment, transport of dangerous goods as well as in other disciplines in the context of the internal security of the organisation. A specialist in risk and crisis management in the enterprise has basic knowledge of economics, management, quality management, risk management, process management, marketing, small and medium-sized enterprises, crisis communication, and crisis management in the enterprise.

RESCUE SERVICES

(Field of study 9205 Security Sciences)

The study is focused on the university education of professionals capable of performing preventive administrative, rescue and liquidation tasks in the field of fire protection in the structures of the state administration, in production and economic organizations, in fire and rescue units. The graduate acquired knowledge about activities in the units of the integrated rescue system. Within the framework of his/her study, he/she is able to direct his/her focus on the area of fire prevention and protection in the specialization „fire technician,“ where he/she learns and applies the regularities of fire prevention. The second possible orientation for the graduate is the area of rescue activities and performance of firefighting service in the line of „firefighter-rescuer,“ with a link to the basic knowledge and skills for the needs of practice of firefighting units.
