

Summer internship for university students

23. 6. – 19. 7. 2024 – TRENCIN – Tech Center

WHAT THE APPLICANTS CAN EXPECT?

- › a challenge in the form of solving actual technical problems in car seating development and a possibility to learn about each constituent part in detail
- › a possibility to help handicapped children by working on a social project
- › expert guidance by experienced engineers
- › presentation of project results for Adient employees
- › a “soft skills” training
- › team building and fun

A SUITABLE CANDIDATE:

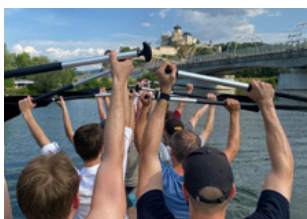

- › is a motivated student from technology-related university
- › is eager to take part in a social project
- › is able to work with 3D software (ideally CATIA V5) at a basic level
- › is able to communicate in English or German

WHAT DO WE HAVE TO OFFER?

- > accommodation during the entire time of the internship, covered by our company
- > financial reward 800 Eur
- > real experience of working on a project in a development center
- > a possibility to work on a thesis under the mentorship of a selected mentor, possibly even a job offer or part time
